You may use this template to plan your course module/weekly content development. Please contact support@villanova.edu to copy an electronic Blackboard course template into your course shell.

Upon completing this module, you will be able to:

-
-
-

-
-
-

Please briefly introduce what the video is about and the length of the video.

-
-
-

-
-

Specific instructions on discussion topics and online interaction are posted here.

Please consider online activities/assessments that help students practice what they have read or watched and integrate activities/assessments that promote online interaction and online learning community. Be sure to include clear instructions on how you want students to complete.

Provide information here on activities that can be used in the live session such as prompts for live discussions.
